in Q1 2018

Net profit

0,8% 3,7%

Q1 2017 Q1 2018
 Net profit (EURm)  Net profitability

Very good prospects for the remainder of 2018

Size of summer programme at 31 March (by PAX, in thousand)

+51%

y/y growth in early bookings for 2018 summer season
(as of 31 March 2018)

Novaturas decided to **significantly increase its summer programme for 2018**

- Novaturas order book for 2018 summer season is dynamically growing thus confirming increasing demand for travel products in source markets
- Early bookings for 2018 summer season at end of March were 51% higher compared to the same period last year

The organized charter flights market is characterized by seasonality. Sales of Novaturas Group, as well as sales of most of the tour operators organizing charter flights, are characterized by an increase in demand for the Group products and services during the summer season, i.e. in the second and third quarters of the year, and lower demand in the other periods. Consequently, the financial results for the second and third quarters of the year has a significant impact on the final results of the entire year.

The Group's strategy

Retain leading position in the Baltics and benefit from the travel market growth

Deliver further geographic expansion – Belarus

Secure further growth in operational scale combined with high profitability ratios and cash generation

Continue expansion of offering in order to retain existing clients and attract new ones, translating this into sales growth

Maintain well-balanced distribution channels, with growing importance of e-commerce

Provide regular dividend payments
